At Middlesex, we offer an extensive variety of undergraduate majors, offering education with practical application in mind. Students who have completed the two-year Associate degree are eligible to transfer to an undergraduate course and complete their studies in London.

Completing your undergraduate degree at Middlesex means you'll be inspired and challenged by internationally renowned academics who remain active in their fields and that will help you compete and stand out in competitive job markets. Our students have access to dedicated study areas; industry and professional practice standard equipment, and round the clock support services to ensure you're fully immersed in our unique student experience.

You'll be investing in your future, with greater job prospects, higher long-term income and the satisfaction that comes simply from doing what you love. Choose Middlesex because we share this ambition for your future and because we have the desire and the means to make it happen.

#### Requirements:

- Successful completion of Associate degree from a recognized institution.
- The entry point (according to Framework for Higher Education Qualifications in England) for students shall be level 5. This means a student would complete an Associate degree then study year 2 and year 3 with Middlesex. Upon successful completion the student would be awarded with a full Bachelor's degree. Generally, a student completes 2 years at a US institution and 2 years in the UK to complete their undergraduate studies.
- Students must achieve GPA of at least 3.0.

#### How to apply

Applicants can submit an application via our applicant Portal at the following address:

[apply.mdx.ac.uk](http://apply.mdx.ac.uk)

You can apply even if your home institution is not a current partner. Please indicate on the application form that you will be applying as a transfer into Year 2.
